Objective

Seeking a challenging role as a Front-End Developer where I can leverage my knowledge of UI/UX design and modern web technologies to create intuitive and engaging user interfaces.

Education

2018 – 2022 **B.Tech, Computer Science and Engineering**, *Indian Institute of Technology Delhi*, New Delhi, India
Overall GPA: 9.5/10

Skills

JavaScript (ES6+), TypeScript, HTML5, CSS3, Python, React, Redux, Angular, Vue.js, Node.js, Express.js, D3.js, Git, Docker, Webpack, Babel, Google Cloud Platform, Firebase, RESTful APIs, GraphQL, Agile Development, Test-Driven Development, Responsive Design, UI/UX

Experience

June 2022 – Present **Software Engineer (Front-End)**, *Google*, Mountain View, CA, USA
Developing intuitive and engaging user interfaces using React and Redux. Working closely with UX designers to implement responsive and accessible web design. Participating in agile development processes, including sprint planning and code reviews. Collaborating with back-end developers to integrate RESTful APIs and ensure seamless data flow.

Projects

2022 **Personal Expense Tracker**
Developed a personal expense tracker application using React, Redux, and Firebase. Implemented user authentication using Firebase Auth and data storage using Firestore. Utilized D3.js for data visualization to provide users with insights into their spending patterns.
